Apply For or Update Your Renovation Firm's Lead-Safe Certification Today!

It's easy for renovation firms to apply for EPA's lead-safe certification, renew their certification or provide information updates. Applications are done online and certificates are emailed in a couple of weeks. Please add lead.paint@epa.gov to your contacts to ensure delivery of your certificate!

Before you proceed please be aware:

- EPA certification does not apply in Alabama, Delaware, Georgia, Iowa, Kansas, Massachusetts, Mississippi, North Carolina, Oklahoma, Oregon, Rhode Island, Utah, Washington, and Wisconsin, or in the Bois Forte Tribe. If you work in one of these areas you must apply directly to that program.
- All of your employees must be trained, and a “Certified Renovator” must be assigned to each job.
- Your certificate and customized logo are also sent to your CDX inbox, so if you don’t see the approval in your email check there. Just keep in mind it may take a week or two for the application to be approved.
- Learn more about EPA's Renovation, Repair and Painting Program requirements.
Lead Renovation/Abatement Firm Certification Application or Update

With this application you can apply for certification/recertification of a lead renovation or abatement firm, you can also update your firm's information, or request a certificate replacement. To get started, enter your firm's information in the search below. If your firm is not listed, please scroll to the end of the list and follow the link "Begin application to certify new firm".

Renovation/Abatement Firm Options

Please select from the following options:

- **Certification:**
  - Recertify Renovation firm ($300 for 5-year certification)
  - Add Abatement firm ($550 for 3-year certification)

- **Other:**
  - Update firm information
  - Replace lost/misplaced certificate(s) ($15 per certificate)

Please note: Renovation firms are not typically involved in abatement; such activities require additional training, certification of all employees, and specific work practice standards. Click here for more information.
