

New CDX Roles for MyPeST

Automated Pre-Registration Email

On **June 1, 2026, at approximately 3:45 PM EST**, you may have received an automated email from the **Pesticide Submission Portal (PSP)** system. This email was sent as part of the upcoming transition to a **new and upgraded version of MyPeST**, which will eventually replace the current PSP application.

What Was the Email About?

- The automated email was sent to **invite PSP users to pre-register for the new CDX roles** associated with the upcoming MyPeST application. Pre-registering now allows you to have your role ready and in place **before the new application goes live**.

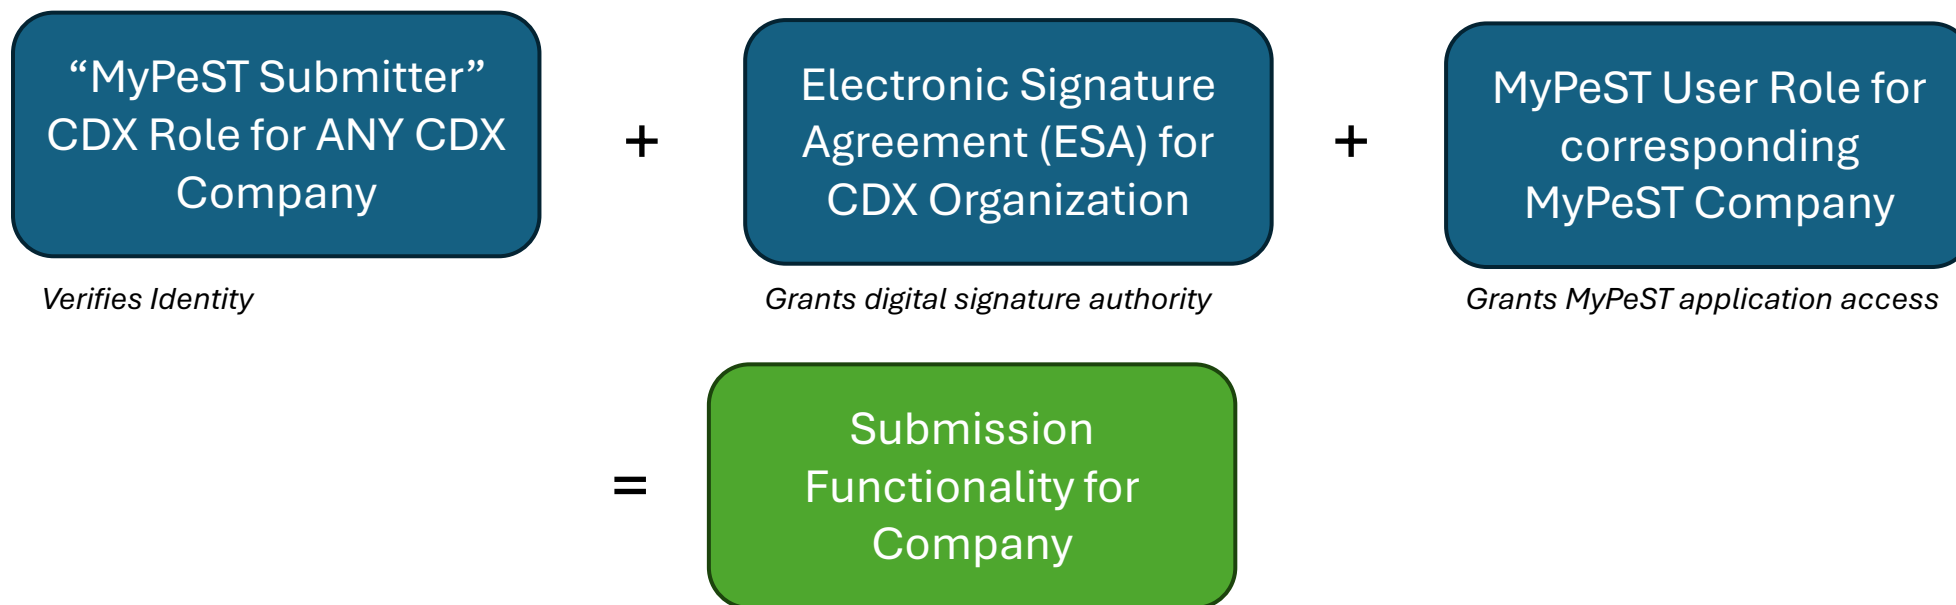

What You Should Know:

- The new CDX roles are **currently deactivated** but will become **active once the new MyPeST application launches**, granting you access at that time.
- You may **select any organization** during pre-registration — additional organizations will be addressed in the future.
- Pre-registration is **optional but encouraged** to help expedite your transition to the new MyPeST application if you are intending to continue reporting on Pesticide products with the EPA.

New CDX Roles Defined

CDX Role Name	Identity Verification	ESA	MyPeST Permission
MyPeST Submitter	Yes – required	Yes, for each CDX Org	May Submit new applications and update existing applications, submit production reports, update DCIs, and all other submissions to OPP
MyPeST Non-Submitter	No	No	View only existing records for the company. You may not create or update any submissions to OPP.

Submitter Functionality Requirements

- If CDX “MyPeST Submitter” role is missing, ESA would also be missing, therefore cannot access submit functionality in MyPeST.
- If ESA is missing, user can still “view” in MyPeST under that company with a MyPeST User role, but cannot submit.
- If MyPeST User Role is missing, cannot access MyPeST application for submission functionality.

Adding MyPeST CDX Roles through Automated Email

Email Subject: “Pre-Registration Email Verification Request”

As an existing user of the Pesticide Submission Portal, you are receiving this notification to ensure you have the opportunity to pre-register for the new OPP pesticide application submission service within the MyPeST application. While this service will become available for use in the future, you can register for it now so that your access is ready in advance. Early registration will help ensure that you maintain the ability to submit pesticide applications electronically once the service is activated.
