USER GUIDE

Version 4.1
10/8/2026

MyPeST Support

 OPPSupport@epa.gov

When submitting a support request, please include: your name and organization, a brief description of the issue, the action you were trying to complete, any error message received, and a screenshot if available.

DO NOT DOWNLOAD THIS USER GUIDE

This User Guide is regularly updated. Returning to the MyPeST application and viewing the posted user guide ensures you always have the most recent version.

Creating A MyPeST Account

In previous versions of the MyPeST application, your MyPeST account was created and managed through Salesforce. Your MyPeST account is now created and managed through CDX and Login.gov. This change allows MyPeST users to submit new product registrations or update existing product applications directly through MyPeST. You will no longer need to log in to both MyPeST and CDX to view the status of your submissions and create new or update existing applications. MyPeST can do it all. The documents you upload are securely stored and CROMERR compliant. If you already have CDX and Login.gov accounts, you can use those existing accounts to log in to MyPeST. If you have not registered with CDX and Login.gov you will need to do so following the directions starting on page seven.

3.1	BIAC	8/4/2026	Added Respond to a Data Call-In (DCI) (p.40–43)

VERSION	AUTHOR	DATE	CHANGES MADE
4.0	BIAC	9/3/2026	Added section Creating a MyPeST Account (p.7–11) Added section Company Number Request (p.13–14) Added section Generate MRID (p.20) Added section Data Call-Ins Tab (p.26) Added section The Case Documents Tab (p.41) Added section How to View Your Submitted Documents and Copy of Record (p.51–53) Added Appendix F—Required Letter Content for Company Number Request (p.87) Updated screenshots throughout the guide to reflect changes in the interface Updated the Start New Submission process (p.43–46) Updated the Submitting Multiple Applications process (p.49–50)
4.1	BIAC	9/30/2026	Updated Company Number Request screenshots and process (p.13–14) Moved Responding to a Data Call-In section to immediately follow the DCI Tab section (p.27–30) Added information about submitting an action code 270 Inert Tradename Clearance (p.48) Deleted Appendix C—Troubleshooting Company Numbers in MyPest since it no longer applies. Changed the letters of the other appendices. Updated screenshots throughout the guide to reflect changes in the interface

Purpose

This user guide provides clear instructions for using the MyPeST application for specific functions based on roles. The MyPeST app is a web-based system that tracks your organization's pesticide applications and products. This user guide will cover the following:

- Selecting an organization and requesting a role
- Viewing features based on roles
- The Dashboard and Dashboard Tiles
- The Case Details page
- Correspondence
- Company Administrator responsibilities in the Role Management Tab (Accepting and denying role requests, revoking user access, inviting users to a role.)
- Creating a New Submission and Updating an Existing Application functionality

Scope

This document is meant for all users but is primarily used by Company Admins (CA) as they have full rights to edit and invite users/create user accounts.

Creating a MyPeST Account

In previous versions of the MyPeST application, your MyPeST account was created and managed through Salesforce. With this update, your MyPeST account is now created and managed through CDX and Login.gov. This change allows MyPeST users to submit new product registrations or update existing product applications directly through MyPeST. You will no longer need to log in to both MyPeST and CDX to view the status of your submissions and create new or update existing applications. MyPeST can do it all. The documents you upload are securely stored and CROMERR compliant. If you already have CDX and Login.gov accounts, you can use those existing accounts to log in to MyPeST. If you have not registered with CDX and Login.gov, please refer to these websites if you need help creating your account:

For help with CDX
Web: cdx.epa.gov/FAQ#CDX
Phone: 888-890-1995

For help with Login.gov
Web: login.gov/help

1. Open your web browser and go to cdx.epa.gov and click the **Register with CDX** button.
2. This will open the CDX Terms and Conditions page. After you read all the terms and conditions, check the **I am the original registrant and owner of the User ID requested** checkbox then click **Proceed**.

Central Data Exchange (CDX) home page with Register with CDX button highlighted.

CDX Terms and Conditions with the checkbox and Proceed button highlighted.

3. You should now see the Core CDX Registration page. In the Active Program Services List type **PSP**. Click **PSP: Pesticide Submission Portal (MyPeST)**.
4. Click the Select Role picklist and select MyPeST Submitter. Click Request Role Access.
5. Create a User ID and enter it in the **User ID field**. CDX will let you know if the User ID you created is unique. Enter your email address in the **Email Address field**. Click **Continue Registration**.
6. You will now need to create a Login.gov account and link it to the CDX account you are creating. Click **Proceed to Login.gov**.

Core CDX registration page highlighting where you should type “PSP” and click the result.

Leaving CDX Page with Proceed to Login.gov button highlighted.

CDX Central Data Exchange

Leaving CDX

You are being redirected to Login.gov to either set up or login to an existing account. Once you've logged in successfully, you will return to CDX to continue your registration process.

Proceed to Login.gov

7. Click **Create an account** then **enter your email address**, **select your preferred language**, and **check the box next to I read and accept the Login.gov Rules of Use**, then click **Submit**.
8. Check your email. Open the message from Login.gov and click **Confirm email address**.
9. Set up two-factor authentication. Choose from **Face or touch unlock**, **Authentication Application**, **Text or voice message**, **Security Key**, or **Government employee ID**.
10. Once you have established two-factor authentication, you are returned to CDX to finish setting up your account.

In Part 1: User Information, enter your **Title, First Name, Last Name**, and choose **three security questions and provide answers**. Your middle initial is not required but it is a good idea to include it.

Enter your name as it appears on your passport or driver's license. Do not use a nickname or shortened version of your name.

If the data you enter does not match the data in LexisNexis, you will not be able to complete the registration process online. You will need to submit paper copies of your proof of identity to the EPA.

In your web browser click **Create an account**, enter your email, select your language, check the box indicating you agree to the terms and conditions and click **Submit**.

In your email, find the message from Login.gov, open it, and click **Confirm email address**.

Back in your browser, select a form of two-factor authentication and follow the directions on screen. Once your authentication method is established you will return to CDX.

Enter your **Title, First Name, Middle Initial, Last Name** and provide answers for the three security questions you select.

11. In Part 2: Organization Information if your company is already registered with the EPA enter your company name in the text field and click **Search**.

Select your company from the search results and click **Submit Request for Access**. You can skip to step 13.

If your company is not registered with the EPA and you need to request a company number, click the **request that we add your organization** link.

12. Select the **Request to Add an Organization** radio button the fill in the form. You must enter data for:

- Organization Name
- Country
- Mailing Address
- City
- State
- ZIP/Postal Code
- Email
- Re-enter Email
- Phone Number

Click **Submit Request for Access**.

Enter your company name in the “Enter organization or organization ID” text box and click Search. If your company has never registered with EPA, click “request that we add your organization” link.

13. If the information you entered in step 10 passes the LexisNexis check, you will see the Electronic CDX Electronic Signature Agreement page. Make a note of your CDX User Name. You will need to enter that every time you log in to MyPeST.

Click the **Sign Electronically** button. In the popup that appears click **Accept**.

14. That will take you to the MyCDX tab on the CDX Central Data Exchange page. Click the **MyPeST Submitter** link to launch MyPeST.

If this is your first time logging in to MyPeST, you will see a popup that has the Rules of Behavior. Scroll to the bottom, **enter your full legal name** and check the **Agree to Rules of Behavior** box then click **Next**.

At this point, you have established an account for yourself in CDX and Login.gov and created or linked to a company in CDX. The next section explains how to connect the information you entered in CDX to MyPeST.

To sign the Electronic Signature Agreement, click **Sign Electronically** and then click **Accept** in the popup screen that appears.

The Home Page

Once you have successfully logged in to My Pesticide e-Submission Tracker (MyPeST), you will see the Home Page.

1. At the top of every page you will see three links: **Home**, **Recent Announcements**, and **User Guide**.

- **Home** will take you back to this page
- **Recent Announcements** will take you to the Pesticides page on EPA.gov
- **User Guide** will open the latest version of the user guide you are currently reading

2. **User Profile** has a drop-down with the option to view your user profile or log out go to your profile on MyCDX.

3. **Select an Organization to Begin** is a drop-down list of all the organizations with whom you have a role. When you log in for the first time, this is grayed out because you have not requested a role with an organization. Once you have a role, that organization will appear in this drop-down menu.

The **Go to Dashboard**, **Make a Submission**, and **Generate MRID** buttons are grayed out until you select your organization. Clicking the **Go to Dashboard** button will take you to the Dashboard that will give you an overview of all your organization's applications with the EPA. Clicking the **Make a Submission** button will allow you to create a new submission to register a new product or submit documents for an existing registration. Generate MRID will create an MRID that you can use to organize your documents.

4. The **Request a New Role** button will start the process of selecting a role with an organization. A role with an organization is required to use the MyPeST app.
5. The **Company Number Request** button will begin the process of creating a Company Number for your new company. You only need to do this if you are the first person in your unregistered company to log in to MyPeST. The next section focuses on this process.

The Home Page screenshot

Company Number Request

If you added a new organization when you created your CDX profile you need to request a company number in MyPeST before you can start using it.

The person who submits the Company Number Request will be approved as a Company Administrator if the request is approved. There is no need to Request a Role separately from this request for the person who submitted it. All other employees will still need to request roles, but there is no other letter required and the newly appointed Company Administrator will be able to approve all the other roles within the company.

1. To get started, click **Company Number Request**.
2. This will bring up the Company Number Request popup. Select the company you registered in CDX from the list and click **Submit**.
3. If the company is based in the United States, the Company Number Request popup will now show the following fields:
 - ***Company Name** (auto-populated)
 - ***Are you going to register a pesticide product?**
 - ***Company Address** (auto-populated)
 - ***Country** (auto-populated)
 - ***Street** (auto-populated)
 - ***City** (auto-populated)
 - ***State/Province** (auto-populated)
 - ***Zip/Postal Code** (auto-populated)

You are not required to enter anything for **Seach Address**. If the auto-populated data is correct, you only need to upload a document and **Submit**.

The Home Page with the Company Number Request button highlighted.

The Company Number Request showing the list of Company Names that you are registered with in CDX highlighted.

The Company Number popup window for a domestic company.

4. If the company is based outside the United States, you will see the above fields and a section for Authorized Agent information with the following fields:

* **Agent First Name**

* **Agent Last Name**

* **Agent Address**

* **Country** (can only be “United States”)

* **Street**

* **City**

* **State/Province**

* **Zip/Postal Code**

You will need to enter information for all of the Authorized Agent fields.

5. For **Are you going to register a pesticide product?** Select **Yes** if you are going to register and produce products. Select **No** if you are only going to produce products.

6. **Upload your Request Letter.** You can only upload one file with your Company Number Request. See Appendix F for the information need to include in your letter. If you need to change the selected file, click the trash can icon and select a different file.

Click **Submit**.

The EPA will review your request. You will receive an email with their determination. If your request was granted and you have a company number, that company will show up in your Organizations list in MyPeST.

CONGRATULATIONS! You have created an account for yourself in CDX, Login.gov, and MyPeST and registered a new company with CDX and MyPeST. The next sections explain how to use the MyPeST features.

The Company Number Request for a foreign based company highlighting the Authorized Agent Location section. The only data auto-populated for Authorized Agent is Country since the Agent must be based in the United States.

The screenshot shows the 'Company Number Request' form. The 'AUTHORIZED AGENT LOCATION' section is highlighted with a red box. It contains fields for Agent First Name, Agent Last Name, Agent Address (Search Address), Country (set to United States), Street, City, State/Province (set to None), and Zip/Postal Code. There is also a file upload section for the Request Letter (Max of 200 MB) with 'Upload Files' and 'Or drop files' options. 'Cancel' and 'Submit' buttons are at the bottom.

This screenshot shows the **Are you going to register a pesticide product?** section highlighted. Select **Yes** if you are going to produce and register products. Select **No** if you are only going to produce products.

The screenshot shows the 'Company Number Request' form. The 'Are you going to register a pesticide product?' section is highlighted with a red box, with the 'Yes' radio button selected. Below this is the 'COMPANY LOCATION' section with fields for Company Address (Search Address), Country (set to United States), Street (2219 Baker Street), City (Indianapolis), State/Province (set to Indiana), and Zip/Postal Code (44225). A 'Selected Document(s): 1' section shows 'Test Document.pdf' (48.05 KB) with a trash can icon. A green message bar says 'Document accepted. To change the file, remove it to upload a different one.' 'Cancel' and 'Submit' buttons are at the bottom.

If you need to replace the document you uploaded, click the trashcan icon and upload a new file. Otherwise, click **Submit**.

The screenshot shows the 'Selected Document(s): 1' section. It displays 'Test Document.pdf' (48.05 KB) with a trash can icon highlighted by a red box. Below is a green message bar: 'Document accepted. To change the file, remove it to upload a different one.' At the bottom, the 'Submit' button is highlighted with a red box, next to a 'Cancel' button.

Roles and Organizations

Creating an account in MyPeST is the first step that gives you access to the application. To see any data, you need to request a role with an organization. There are four different roles: Company Administrator (CA), Company Representative (CR), Consultant, and Contributor (Future). Each role has different responsibilities and levels of access to data which are explained below.

You can have one role at multiple organizations, but you cannot have multiple roles for a single organization. You can have different role types at different organizations—just because you are a Consultant with one organization doesn't mean you can only request Consultant roles. It is up to the organization to approve or deny your role request. So you could be a CA for five organizations, a CR for three others, a Consultant for six others, and never be a Contributor (Future). However, if one of the six organizations where you are a Consultant wants you to become a Company Admin, you can not just request a new role. The one role per organization rule will not let you request a second role. The workaround is explained in Appendix A.

Role Types

There are four roles that a user can request within the MyPeST App:

COMPANY ADMINISTRATOR (CA)

The CA is the highest level in the hierarchy of user roles within the MyPeST App and gives the user the highest level of access to data. CAs can view the status of all current projects and can access product history to view information about previously submitted projects. They can start new submissions and update any existing application. CAs are the only users allowed to invite new users, approve, or deny user requests, and revoke the access of a user. Every organization must have at least one user designated as the CA.

An organization can have multiple CAs. The first CA for an organization is approved directly by the EPA. This process is explained in the next section. No other role can be assigned within an organization until the first CA is approved. After the first CA is approved, that person will approve all other roles including other CA roles.

COMPANY REPRESENTATIVE (CR)

The CR has the same level of data access as a CA. They can start new submissions and update any existing application. However, they are not able to invite users, approve or deny role requests, or revoke user access. An organization can have multiple CRs.

CONSULTANT

Consultants can start a new submission and update an existing applications that they submitted. An organization can have multiple Consultants.

CONTRIBUTOR (FUTURE)

Potential future role.

Who Can Apply For These Roles?

The roles are open to anyone the organization is willing to approve at that level of access. An organization can grant Company Admin access to a contractor who works for a third-party organization. Likewise, a user can be given the Consultant role, even though they are a direct employee of the organization making the submission.

The EPA only approves the first Company Admin for any organization to allow more flexibility in who they appoint to work for them. If an organization wants to make everyone a Company Admin, they are able to do that. If the organization decides that only one person should have CA access, they can do that as well.

If an organization ever finds itself without a Company Admin, the CRs, Consultants, and Contributors (Future) can continue working at their current level of access with no disruption. However, until a new CA is approved, no roles can be approved, denied, or revoked. If there is no acting CA to approve them, the new person requesting the Company Admin role will need to submit a letter and follow the same process the first CA did in order to be approved. It is recommended to have at least two CAs appointed for each organization.

Requirements to be the First Company Administrator for Your Organization

In order to be the first Company Admin for your organization, you need to be approved by EPA. To get that approval, you need to collect some information outside the app and submit it.

The Authorization Letter

The letter requirements are:

1. The letter must be on the Company's letterhead
2. Use the language from the Authorization Letter Template
3. It must be signed by an officer of the Company
4. Save the letter using the Authorization Filename Conventions: **[Company Number] [Company Name] Mypest Company Admin.pdf**

Every organization with a company number needs a signed authorization letter for the first CA. If a organization has 10 different companies with the same name but different company numbers and wants to assign the same person CA for all of them, that organization will need to submit 10 letters to the EPA, one for each company number.

Authorization Letter example

The example shows a letterhead box (1) containing a bug logo and company address. A central text box (2) contains the authorization form text. A signature box (3) contains a handwritten signature and the officer's name and title.

1
Company Letterhead

2
Required text

3
Officer's Signature

IMPORTANT

You must follow the Authorization Filename Conventions

You must name your file as specified below:

[Company Number] [Company Name] Mypest Company Admin.pdf

for example:

86753 Killitol Mypest Company Admin.pdf

Request To Be The First Company Administrator For Your Organization

The first role your organization needs to establish is the Company Administrator (CA). If you do not have a pdf of your Authorization Letter, get that now. You cannot complete this process without it.

1. On the Home page, click the **Request a New Role** button.
2. The *Request Role* pop-up window appears. You can enter a few letters of the Company Name or you can enter the Company Number (or both). Then click the **radio button next to the role you want**. In this example we are applying for the Company Administrator role for the Big Bear company. Click the **Request Role Access** button.

If your company does not appear in the Company Search results, check out **Appendix C—Troubleshooting Company Numbers** for instructions on how to add your company.

3. Clicking the button brings up the *Company Search* pop-up. This is where knowing the Company Number becomes very important. If the organization you are requesting a role with has multiple divisions or has acquired multiple companies, you might see a list of identical Company Names but different Company Numbers. Each company number represents a different company and they do not share information. So you need to ensure you are selecting the correct company. Once you have selected the organization, click the **Next** button.

Step 1

Step 2

Step 3

4. The *Confirm Details* popup window will appear. If all the information is correct, click **Confirm Details**. If you see a mistake, you can click **Previous** to return to the *Company Search* page and select a different organization. If at any point you want to cancel your request, click the **X** in the upper right corner of the popup window.
5. Submit your authorization letter.
In the *Upload authorization document* popup you can navigate to a file on your hard drive by clicking **Upload Files** or drag and drop it inside the dotted outline.
6. If you click **Upload Files**, navigate to the file on your hard drive and click **Upload**. If you used drag and drop, click **Upload**.
7. When the progress bar fills in a green check will appear. Click **Done** which will return you to the *Upload authorization document*. Click **Finish**.
8. You will now see the *Role Request Submitted* popup window. Click the **X** in the upper right corner of the popup window to close this window and return to the Home page.
9. You will receive another email from EPA once your request has been approved. The next time you log into MyPeST, the Organization drop-down will be active. Select your organization and click **Go**.

Step 4

Step 5

Step 6

Step 7

Request A Role With An Organization After the First Company Admin Has Been Approved

What sets the Company Admin apart from the other roles is the ability to approve all the other role requests. Now that the first Company Admin has been approved, that person will now approve all other role requests.

To request the role of Company Representative, Consultant, Contributor, or to be an additional Company Admin, follow steps 1–4 above. You do not need to submit a letter. If the *Upload authorization document* popup appears, just click **Finish**. Do not upload anything. You will receive an email from EPA after your request has been approved. The next time you log into MyPeST, the Organization drop-down will be active. Select your organization and click **Go**.

Accepting or Rejecting a Role Invitation

You can be invited by an organization to accept a role they have chosen for you. If you have an invitation waiting for you, the next time you log in to MyPeST you will see the *Accept/Reject Role* popup screen before you see the Home Screen.

Accept

1. If your data is correct and you recognize the organization sending the request, select **Accept Role** from the drop-down.
2. Click **Next**.
3. You will see a popup congratulating you on your new role. Click **OK**.

When you get to the Home page, the organization will appear in your Organizations list.

Reject

4. If your data is incorrect or you do not recognize the organization sending the request, select **Reject Role** from the drop-down.
5. Click **Next**.
6. You will see a popup asking *Are you sure you want to reject the role?* Click **Reject Role**.
7. You will see a popup indicating you rejected the role. Click **OK**.

When you get to the Home page, the organization will not appear in your Organizations list.

If it turns out you should have accepted the role, you can always request it or the organization can send another invitation.

Next

Select An Organization

After you have been accepted for a role, the next time you log in you will see the **Select an Organization to Begin** drop-down is active on the Home screen. Click the drop-down and select your organization from the list. From here you can:

- **Go to Dashboard** to see the status of your EPA applications
- **Make a Submission** to start a new product registration or update an existing application
- **Generate MRID** to get a Master Record Identifier you can add to your documents before submittal.

Generate MRID

Now that you have your account set up, your company registered and company number assigned, and have established your role you can now generate an MRID you can add to your documents before submitting them.

EPA uses MRIDs (Master Record Identifiers) to track and manage information submitted to the pesticide program. Before sending an electronic submission that will include one or more studies you need an MRID. An MRID is unique nine-digit number assigned to each study submitted to EPA. The first six digits are referred to as the 'root' MRID. You can append numbers 000–999

To generate an MRID follow these steps:

- 1) Click **Select an Organization to Begin** and select your company from the drop down list. This will activate the three buttons directly below.
- 2) Click **Generate MRID**. The Generate Root MRID will appear. Write down or copy the MRID Number then click **Confirm**.
- 3) If you need more information about how to use MRID numbers, click **these instructions** to navigate to the EPA webpage that explains what an MRID is and how you should use it.

The Dashboard

1 The top navigation bar contains the EPA logo, Home, Recent Announcements, User Guide, and a user profile icon for Tom Miller.

2 The top right corner displays the user's role and company: **Company Administrator - CDX Testing Company - 98765**.

3 The main dashboard area is divided into seven tiles:

- My Team:** A table listing team members with columns for Name, Role, and Email Address.
- Registration Review Cases:** A table listing cases with columns for Case Number, Case Name, Active Ingredient Name, PC Code, and Case Status.
- Pending Applications:** A table listing applications with columns for Product Name, Case Number, Application Date, Start Date, Due Date, and Projected Completion Date.
- My DCIs:** A table listing DCIs with columns for DCI Number, Date Issued, and Active Ingredient Name.
- Applications:** A table listing applications with columns for Case Number, Product Name, Status, and Due Date.
- My Products:** A table listing products with columns for Admin Number, Product Case, Case Response Date, and Case Status.
- Active Ingredients:** A table listing active ingredients with columns for Ingredient Name, Ingredient PC Code, and Pesticide Category.

You will be directed to the Dashboard for your organization after you click the **Go to Dashboard** button on the Home screen.

1. There are eight Tabs on the Dashboard:

- **Dashboard**
- **Applications**
- **Products**
- **Data Call-Ins**
- **Submit**
- **Inbox** (currently inactive)
- **Reports** (currently inactive)
- **Role Management**

The Company Administrator can see all seven tabs.

The Company Representative can see all the tabs except Role Management.

The Consultant can see Dashboard, Applications, Submit, and Data Call-Ins

The Contributor will only see Dashboard and Inbox.

2. This lets you know your role, the company name and number you are currently viewing. If you would like to switch to a different company, click **Home** in the header and select a different company in the Organizations drop-down.

3. There are seven Tiles on the Dashboard:

- **My Team**
- **Registration Review Cases**
- **Pending Applications**
- **My DCIs**
- **Applications**
- **My Products**
- **Active Ingredients**

The Company Administrator and Company Representative can see all seven tiles and all data about all projects regardless if they are complete or in progress.

The Consultant can see the MyDCIs tile

Contributors can not see any tiles on the Dashboard.

On the Dashboard and Case Details page, you will see this Tool Tip icon. If you hover over the icon, you will see a popup that gives more information about the field.

00843594	Snakes in a Can	200017-1	A380	Complete	Complete	Tom Missler		Thomas Missler	09/24/2026			

You can access the Applications Tab by clicking **Applications** in the Tab bar near the top of the screen, or by clicking **View All** in either the Pending Applications or Applications tiles on the Dashboard.

If you click the **Applications Tab** or **View all** in the Applications tile, you will see a list of all current applications as well as all completed applications for your company.

If you click **View All** in the Pending Applications tile, you will only see a list of current applications that have not completed the review process.

To see all the fields on the table, you will need to scroll to the right. There are 13 fields in the table:

- **Case Number**
- **Product Name**
- **Admin Number**
- **Subject**
- **Status**—Indicates the stage of EPA review process the application is currently in.
- **Sub Status**—This is dependent on what Status the application is in. Not all Statuses have Substatuses.
- **Owner Name**
- **Projected Completion Date**
- **Created By**
- **Create Date**
- **Due Date**—The date when the action work is to be completed before any negotiation or changes.
- **Team**—This is the name of the EPA team working on your application, not the people in the My Team tile.
- **CDX Pkg. ID**—The CDX tracking number

Clicking a **Case Number** will take you to the Case Details page.

You can search the list of cases by Case Number, Product Name, Admin Number, CDX Pkg. ID, Subject, or Status.

GDCI-103601-7847	—	Glyphosate, isopropylamine salt	—	—	Pending Submission

You can access the Data Call-Ins Tab by clicking **Data Call-Ins** in the Tab bar near the top of the screen, or by clicking **View All** in the My DCIs tile on the Dashboard. You will see a list of all current and completed DCIs for your company.

There are six fields in the table:

- **DCI Number** – Clicking the hyperlink will take you to the DCI details page for the selected Data Call-In where you can submit 90-Day responses and supporting documentation.
- **Date Issued**
- **Active Ingredient Name**
- **90-Day Response Due Date**
- **Data Submission Due Date**
- **Data Review Status**

You can search the list of cases by DCI Number, Active Ingredient Name, or Data Review Status.

Responding to a Data Call-In (DCI)

It is possible to submit documents (studies, letters, follow-up documentation) and 90-day responses to DCI through MyPeST.

1. On the Dashboard in the center column at the bottom you will find the My DCIs tile. You may need to scroll down to see it. The My DCIs tile displays:
 - **DCI Number**
 - **Date Issued**
 - **Active Ingredient Name**
2. You can navigate to your DCIs using the My DCIs tile or by clicking the **Data Call-Ins** tab at the top of page. Click the **DCI Number** hyperlink in the tile or on the Data Call-Ins page for the DCI you want to submit responses for.
3. Above the header is the Back To Dashboard button which will return you to the main dashboard for your company.

The header on the Data Call-In details page shows:

- **Date Issued**
- **Active Ingredient**
- **PC Code**
- **CAS Number**

The Details section shows:

- **Guideline**—For a complete list of guidelines visit <https://www.epa.gov/sites/default/files/2019-10/documents/ocspp-testguidelines-masterlist-2019-09-24.pdf>
 - **Timeline (Months)**—Set by EPA and is based on the guideline requirement
 - **90-Day Response**—how your company intends to respond to the DCI
4. Click the **Edit DCI Responses** button

The Dashboard with the Data Call-Ins tab, the My DCIs tile, and the DCI Number highlighted.

The Data Call-In details page that appears when you click a DCI Number hyperlink with the Back to Dashboard and Edit DCI Responses buttons highlighted.

5. The **Edit DCI Responses** button will dim, **Upload Files** or **drop files** will appear, and two active buttons (**Cancel** and **Preview**) and one inactive button (**Submit**) will appear, and the dropdown lists under 90-Day Response will become active.

6. At this point you can do one of three things:

- 1) Select a 90-Day response for any or all guidelines and Submit without uploading documents
- 2) Select a 90-Day response for any or all guidelines, upload documents and Submit
- 3) Upload documents without selecting a 90-Day response

7. There are 11 options in the 90-Day Response dropdown:

- **Developing Data**
- **Agreement to Cost Share**
- **Offer to Cost Share**
- **Submitting Existing Study**
- **Upgrading a Study**
- **Citing a Study**
- **Deleting Uses**
- **Low Volume/Minor Use Waiver Request**
- **Request to Waive Data**
- **Generic Data Exemption**
- **Voluntary Product Cancellation**

You will need to make a selection for each guideline separately.

8. If you would like to upload a document, you can drag and drop your files or you can click the Upload Files button and select documents by navigating to the location on your hard drive.

The accepted file types are:

- .pdf (Adobe Acrobat)
- .doc (Microsoft Word 1997–2003)
- .docx (Microsoft Word 2003–Present)
- .xls (Microsoft Excel 1997–2003)
- .xlsx (Microsoft Excel 2003–Present)

There is a 200 document limit and 200MB per document size limit for uploads. You are not required to upload any documents with your DCI response.

The Data Call-In details page with the Edit DCI Responses button disabled, the 90-Day Response dropdown menus active, Upload Files and the Cancel, Preview, and Submit buttons visible.

The screenshot shows the 'Details' page for a Data Call-In. At the top, the chemical name 'Glyphosate, isopropylamine salt' and ID '103601' are displayed. A table lists guidelines with their timelines. A red box highlights the '90 - Day Response' dropdown menu for each guideline. Another red box highlights the 'Edit DCI Responses' button, which is disabled. A third red box highlights the 'Upload Files' button, which is active, along with 'Or drop files' and 'Cancel', 'Preview', and 'Submit' buttons. A sidebar on the right contains 'Data Call-In Submissions' information.

The 90-Day Response dropdown menu options.

The screenshot shows the 90-Day Response dropdown menu open. The options listed are: Developing Data, Agreement to Cost Share, Offer to Cost Share, Submitting Existing Study, Upgrading a Study, Citing a Study, Deleting Uses, Low Volume/Minor Use Waiver Request, Request to Waive Data, Generic Data Exemption, and Voluntary Product Cancellation.

9. Once you have selected your 90-Day Responses and uploaded your documents you can click **Preview** to see a receipt summarizing the information you provided. This is an optional step.

10. Click **Submit** to register your responses and submit your documents.

11. The **Create Passphrase & Review** popup will appear. Your passphrase must meet the following criteria:

- At least 8 characters long
- No more than 20 characters
- Spaces are allowed
- No special characters (!, #, ?, etc.)
- Case sensitive

When your **Passphrase** and **Confirm Passphrase** field match the Continue button will become active. If you need to see what you typed, click the **eyeball icon** in the field.

12. Click **Continue**.

13. The **Digital Signature Screen** popup will appear. Click **Accept** if you certify, under penalty of law that the information provided in this document is, to the best of your knowledge and belief, true, accurate, and complete. You are aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations. If not click **Decline** and cancel your submission.

An example of the receipt that is downloaded when you click the Preview button.

The Create Passphrase & Review popup.

Information

Create Passphrase & Review

Please create a passphrase that is at least 8 characters in length and does not exceed 20 characters. To protect your account, your passphrase should contain a combination of letters and numbers. The passphrase you create may include spaces but should not contain special characters (for example, +, ?, and *). Passphrases are also case sensitive. You can associate the same passphrase with multiple submissions.

Your passphrase will be used as an encryption key to protect the contents of your Copy of Record. Your Copy of Record cannot be accessed without this passphrase. As a Submitter, you are responsible for remembering your passphrase and distributing it to only authorized personnel.

Passphrase: *

Confirm Passphrase: *

Continue Cancel

The Digital Signature Screen. Clicking Decline here will cancel your submission.

I certify, under penalty of law that the information provided in this document is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.

Accept Decline

14. If you clicked Accept you will return to the DCI details page. You will see a green Success message appear to indicate that your submission was sent to the EPA and the 90-Day responses you selected will appear next to the guidelines they apply to.

Congratulations! You have successfully completed a DCI submission to the EPA.

The DCI details page showing the success message indicating your response was received by EPA and the responses appear next to the applicable guidelines.

The screenshot displays the DCI details page for GDCI-102601-7847. At the top, a green success message states: "Success Your submission was sent to EPA." Below this, a table lists guidelines with their timelines and 90-day responses. The first two rows show "Upgrading a Study" and "Developing Data" as responses, which are highlighted with a red box. The remaining rows show "Select Response..." as the chosen response. On the right, a "Data Call-In Submissions" section provides information about the data collection process and the public reporting and recordkeeping burden.

Guideline	Timeline (Months)	90 - Day Response
630.1000	8	Upgrading a Study
630.6302	8	Developing Data

630.6316	8	Select Response...
630.6317	16	Select Response...
630.6319	8	Select Response...

Data Call-In Submissions

This collection of information is approved by OMB under the Paperwork Reduction Act at U.S.C. 3001 or less. OMB Control No. 2020-0716. Responses to this collection of information are mandatory for certain persons, as specified at 40 CFR section 162.205. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The public reporting and recordkeeping burden for this collection of information is estimated to be between 20 and 8,100 hours per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimate, and any suggested methods for minimizing respondent burden to the Data & Enterprise Programs, Division Deputy Director, U.S. Environmental Protection Agency (2807T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460, include the OMB

Select All	Product Name	Registration Number	Product Status	Use Type	Restricted Use	Signal Word	Pesticide Type	Bilingual Labeling Added	Not To Be Released For Shipment	Spanish Labeling URL
☐	Test Product 641	98765-249	Active	EP	☐	Warning	Conventional Chemical	☒	☐	
☐	Pesti-16Jun.1029	98765-12	Pending	EP	☐			☐	☐	
☐	Non-PRIA 200 Document Upload	98765-107	Pending	EP	☐			☐	☐	
☐	Handsome Herbicide Use This One	98765-1000	Active	EP	☐			☒	☐	

You can access the Products Tab by clicking **Products** in the Tab bar near the top of the screen, or by clicking **View All** in the My Products tile on the Dashboard.

On the Products Tab you will see:

- 1) The **search** bar. You can search the list by Product Name, Registration/Admin Number, Use Type, Signal Word, or Pesticide Type. As you type, the list will filter the results.
- 2) The **page navigation** section where you can adjust the number of products that appear on the page and navigate through the pages.
- 3) The products table. There are 9 fields in the table:
 - **Product Name**
 - **Registration Number** – Product’s EPA registration number.
 - **Use Type** – The options are “EP” (end-use product) or “MP” (manufacturing use product)
 - **Restricted Use** – A checkmark indicates whether the product is a Restricted Use pesticide. An empty checkbox indicates that it is not an RUP.
 - **Signal Word** – The options are Danger, Warning, Caution, or None. These correspond to the product’s toxicity category.
 - **Pesticide Type** – The options include conventional pesticide, antimicrobial pesticide, and biopesticide. These options can help you determine the PRIA 5 product type, though they do not correspond exactly.
 - **Bilingual Labeling Added** – A check indicates the product has bilingual labeling. An empty checkbox indicates a product does not have bilingual labeling.
 - **Not To Be Released For Shipment** – A check indicates the product is not going to be released for shipment. An empty checkbox indicates a product may be released for shipment.
 - **Spanish Labeling URL** – Users can optionally paste in a URL where the bilingual labeling is stored.

Clicking any column header once will organize the table in ascending order based on that column. Clicking the same column again will sort the table in descending order based on that column.

For example, clicking the Product Name column once will sort the table by product name from A to Z. Clicking Product Name again will sort the table by product name from Z to A.

For columns with a checkbox, clicking once will sort the table with empty checkboxes at the top. Clicking a second time will put checked checkboxes at the top.

Tool Tips

Column headers also contain “i” icons. If you hover over the icons, tool tips will appear with simplified instructions on what to report.

Bilingual Labeling Added Tool Tip

Bilingual Labeling 
Added

Products that contain the required PRA 5 bilingual labeling. Manufacturing-use products and products not yet subject to the requirements based on the schedule in the law may be left blank.

Not To Be Released For Shipment Tool Tip

Not To Be Released 
For Shipment

Products subject to bilingual labeling requirements that do not have the bilingual labeling added but will not be released for shipment until the bilingual labeling is added.

Spanish Labeling URL Tool Tip

Spanish Labeling URL 

Optional field to paste the URL for the product's Spanish labeling or SDS. If the URL contains more than the character limit of 255, please shorten it using a method such as tinyURL. EPA will make this URL available to the public.

How to Certify PRIA 5 Bilingual Labeling Compliance

Background

The Pesticide Registration Improvement Act of 2022 (PRIA 5) requires that each registered end-use pesticide product released for shipment include Spanish language translations for parts of the labeling contained in EPA's *Spanish Translation Guide for Pesticide Labeling*.

Translations may be included either on the pesticide product container itself or through a link to such translation via scannable technology or other electronic methods readily accessible on the product label. Antimicrobial pesticide products and non-agricultural/non-restricted use pesticide products may instead provide a link to bilingual safety data sheets (SDS).

There is rolling schedule for the implementation of bilingual labeling requirements, from December 2025 to 2030. That schedule is found in the table below.

Please see <https://www.epa.gov/pesticide-labels/bilingual-labeling> for more information on PRIA 5 bilingual labeling requirements.

Should I report compliance with PRIA 5 bilingual labeling requirements?

Do report compliance if...

- You have **any** products that are currently required to include bilingual labeling. (**Note:** this includes both end-use products and products with a special local needs designation.)
- You have **any** products that would currently be required to include bilingual labeling, but you are not releasing them for shipment at this time.

Do not report compliance if...

- **None** of your products are end-use products or have a special local needs designation (i.e., all are manufacturing use products or experimental use permits).
- **None** of your end-use products/special local needs permits are currently required to include bilingual labeling.

If **none** of your products are end-use products/special local needs permits (i.e., all are manufacturing use products or experimental use permits) or **none** are currently required to include bilingual labeling, **DO NOT** check boxes or certify responses in MyPeST.

What are the compliance deadlines for bilingual labeling requirements?

Pesticide Product Type	Bilingual Labeling Due	Report Due in MyPeST
Restricted Use Pesticides (RUPs)	December 29, 2025	July 31, 2026*
Agricultural Products (Non-RUPs)		
Acute Toxicity Category I	December 29, 2025	July 31, 2026*
Acute Toxicity Category II	December 29, 2027	January 28, 2028*
Antimicrobial and Non-Agricultural Products		
Acute Toxicity Category I	December 29, 2026	January 28, 2027*
Acute Toxicity Category II	December 29, 2028	January 28, 2029*
All Other Pesticide Products	December 29, 2030	January 28, 2031*

*Provided OMB has approved EPA's ICR.

Product types are defined as follows:

Product Type	Definition
Restricted use pesticides	Products classified as "restricted use" under 40 CFR 152.160; they have a "restricted use" statement on the front panel.
Agricultural products	Products that include an "Agricultural Use Requirements" statement on the label. Dual use products are subject to agricultural product deadlines. Animal products are not considered agricultural products.
Antimicrobial products	An antimicrobial pesticide is intended to disinfect, sanitize, reduce, or mitigate growth or development of microbiological organisms or protect inanimate objects, industrial processes or systems, surfaces, water, or other chemical substances from contamination, fouling, or deterioration caused by bacteria, viruses, fungi, protozoa, algae, or slime. Wood preservatives and anti-foulants are classified as antimicrobial pesticides if the products have antimicrobial claims.
All other pesticide products	Agricultural, antimicrobial, and non-agricultural pesticide products classified as acute toxicity categories III and IV.

How do I report compliance with bilingual labeling requirements?

For each pesticide product, check the product's type and acute toxicity category to determine its compliance date. (Some information is available in MyPeST to assist you, but you should verify product information using the product label.)

Then, determine whether the product label includes bilingual labeling by any of the methods permissible under PRIA 5 (e.g., translated text on the container; URL or QR code to the translated text; or translated SDS where applicable).

If a product has reached its compliance date but does not contain the required bilingual labeling, check whether the product has been released for shipment.

Note: Please report all products to which you have added bilingual labeling, even if they are not required to include bilingual labeling at this time (e.g., products that have not reached their compliance dates yet). EPA wishes to acknowledge registrants who have gone above and beyond the statutory requirements.

How Do I Certify That Bilingual Labeling Was Added Or That A Product Is Not To Be Released For Shipment?

- 1) First, you will select all products you want to certify as having bilingual labeling.
- 2) Go to the “My Products” tab. Find the product or products you want to certify.

If you are looking for a specific product, using the **Search** bar is the most efficient method.

To select products using the **page navigation features**, begin by setting the number of items per page. You can show 5, 10, 25, 50, 75, or 100 products.

Clicking the **Select All** checkbox will select all the products displayed on that page, not all products registered to an organization. For example, if a company has 50 products and is showing 10 items per page, clicking **Select All** on page 1 will only select those 10 products; the other 40 products are not selected.

To choose specific products, you can click the checkbox next to each product to select it and click it again to deselect it. If your company has multiple pages of products, you can select specific products (or click **Select All**) on page one, click the **Next Page** button, and click specific products (or **Select All**) on page two, and repeat the process on each page until you have made all your selections.

- 3) Click the check boxes next to all products to which you have added bilingual labeling.

Selecting specific products from the list

Select All	Product Name	Registration
☐		
☒	RIDOMIL GOLD BRAVO SC	100-1221
☐	Apron XL 350ES	100-1565
☒	VOLIAM XPRESS INSECTICIDE	100-1320
☐	QUADRIS TOP SBX	100-1554

- 4) Clicking a check box will make the **Edit** button active. Once you have finished clicking the check boxes next to all products to which you have added bilingual labeling, click **Edit**. This will bring up the **Certify Bilingual Label Status** popup.

The **Certify Bilingual Label Status** popup has 4 sections:

1. An explanation of what you are certifying.
 2. Three bubbles to certify either:
 - Bilingual Labeling Added,
 - Not To Be Released For Shipment, or
 - Remove Product Certification.
 3. The list of products you selected that the certification will be applied to.
 4. Submit and Cancel buttons to confirm your choice.
- 5) To certify products as having bilingual labeling added, select the **Bilingual Labeling Added** bubble and click **Submit**. This will bring up the **Certify Bilingual Labeling Compliance** popup.
- 6) Click Yes to confirm that you have added bilingual labeling, or click the X to return to the Products Table to make changes.
- 7) If you click Yes, you will be returned to the Products Tab. You will now see checkmarks for your selected products in the Bilingual Labeling Added column.

A green toast message will be displayed at the top of the page for a few seconds, indicating that your certification has been recorded by the EPA.

Note: There is no “Save” button in MyPeST. However, the checkmarks will save when you accept the certification statements, so you do not have to complete the report in one sitting.

Certify Bilingual Label Status popup with Bilingual Labeling Added selected.

 **Certify Bilingual Label Status**

I certify that all products with the “**Bilingual Labeling Added**” box selected are in compliance with the bilingual labeling requirements specified at 7 USC §136a(5) (i.e., include on the labeling the required Spanish translations or a link to translations via scannable technology or other electronic methods, or where permitted a link to Safety Data Sheets in Spanish).

I certify that all products with the “**Not To Be Released For Shipment**” box selected will not be released for shipment until the bilingual labeling is added and the “Bilingual Labeling Added” box is selected and certified.

If these products were incorrectly certified, select “**Remove Product Certification**” and click **Submit** to remove all certifications for the selected product(s).

☒ Bilingual Labeling Added
☐ Not To Be Released For Shipment
☐ Remove Product Certification

Apply the selected **Bilingual Labeling Added** status to the following product(s):

RIDOMIL GOLD BRAVO SC	100-1221
VOLIAM XPRESS INSECTICIDE	100-1320
AVICTA DUO COT202	100-1538

Submit **Cancel**

Certify Bilingual Labeling Compliance popup.

 **Certify Bilingual Labeling Compliance**

I certify that all products with the “Bilingual Labeling Added” box selected are in compliance with the bilingual labeling requirements specified at 7 USC §136a(5) (i.e., include on the labeling the required Spanish translations or a link to translations via scannable technology or other electronic methods, or where permitted a link to Safety Data Sheets in Spanish).

Click the “X” to cancel this action and return to the previous screen.

Yes

Products Tab showing your selected products are now certified Bilingual Labeling Added and the toast message confirming that the product records have been updated.

 **Certify Bilingual Labeling Compliance**
Product records have been updated with your certification.

- 8) Next, certify any products that would be required to include bilingual labeling if shipped, but which you are not releasing for shipment.

Note: Only report whether a product as “Not To Be Released For Shipment” if that is the basis for not including bilingual labeling. Otherwise, leave those checkboxes blank.

- 9) To certify products as “Not To Be Released For Shipment,” repeat steps 2 – 7, but this time select the **Not To Be Released For Shipment** bubble instead.
- 10) Click **Yes** on the acknowledgement popup to confirm that selected products will not be released for shipment until bilingual labeling is added. (Please note that you can release a product for shipment at any time; just add any required bilingual labeling to the product and update your bilingual labeling responses in MyPeST.)
- 11) You will return to the Products Tab. You will now see checkmarks for your selected products in the **Not To Be Released For Shipment** column.

A green toast message will be displayed at the top of the page for a few seconds indicating that your certification has been recorded by EPA.

- 12) If you incorrectly certified a product, you can check the box beside it, click **Edit**, click the **Remove Product Certification** bubble, and click **Submit**. There will be no popup. However, you will return to the Products tab and any checkmarks that were in the **Bilingual Labeling Added** or **Not To Be Released For Shipment** columns will be removed.

A green toast message will be displayed at the top of the page for a few seconds indicating that your certification has been updated.

Note: You can change your responses in MyPeST at any time. If, before the next reporting deadline, you decide to release a selected product for shipment, remove the certification by following the instructions below, and instead certify that you have added the required bilingual labeling.

Certify Not To Be Released For Shipment popup.

Certify Not To Be Released For Shipment

I certify that all products with the “Not To Be Released For Shipment” box selected will not be released for shipment until the bilingual labeling is added and the “Bilingual Labeling Added” box is selected and certified.

Click the “X” to cancel this action and return to the previous screen.

Yes

Products Tab showing your selected products are now certified Not To Be Released For Shipment.

The screenshot shows the EPA MyPeST interface with the 'Products' tab selected. A green toast message at the top states: 'Certify Bilingual Labeling Compliance. Product records have been updated with your certification.' The table below lists products with their certification status. The 'Not To Be Released For Shipment' column shows checkmarks for selected products.

Select	Product Name	Registration Number	Use Type	Restricted Use	Signal Word	Pesticide Type	Bilingual Labeling Added	Not To Be Released For Shipment	Spanish Labeling URL

How Do I Provide EPA With Links To Bilingual Labeling?

While reporting on compliance with PRIA 5 bilingual labeling requirements, registrants may also provide a link to their translated labels. Note that providing a URL is not required to report bilingual labeling compliance, nor are registrants who have not put their labeling online expected to create URLs exclusively to share it via MyPeST.

However, EPA hopes that registrants will consider providing URLs to bilingual labeling in MyPeST so that EPA may publish the link on the Pesticide and Product Labeling System (PPLS) to make bilingual labeling accessible to farmworkers and the general public.

- 1) To add a URL link to a bilingual label, copy the link and paste it into the Spanish Labeling URL field next to the corresponding product.

Note: For products that have multiple market labels, note that there is a **255-character** limit on the field. Registrants should include the most representative or complete label, not all possible labels.

- 2) When you paste the URL in the field, the background of that table cell will turn yellow. You will see six dots at the top of the column indicating that you have made a change, but that your change has not been saved yet.

In the example, there are three URLs that are highlighted yellow, which means you entered three URLs, but so far, none of them have been saved. If you close my browser window now, that data will be lost.

- 3) After five seconds of inactivity, MyPeST saves all the highlighted data. You will see a green toast message at the top of the screen indicating that your URLs have been saved, and the URLs will have a white background again. Because responses save automatically, you do not have to finish the report in one sitting.

Note: the Spanish Labeling URL is separate from the Bilingual Labeling Added checkbox. So, if you select products that have been certified bilingual and click Remove Product Certification, the URL will remain in the Spanish Labeling URL field until you highlight it and delete it.

Products Tab showing three URLs have been entered, but since they have a yellow background and the blue dots are visible, the data has not yet been saved in MyPeST.

I Already Reported Compliance. Should I Update/Recertify My Responses?

Do update/recertify responses if...

- You have any products that have reached their compliance dates since you last reported.
- You have registered any new products that require bilingual labeling per the compliance deadlines, or made label changes (such as adding agricultural uses) that change a product's PRIA 5 compliance dates.
- You released for shipment a product that must include bilingual labeling per the compliance deadlines, but that previously did not have bilingual labeling because it was not released for shipment.

Otherwise, **do not** update or recertify responses.

Assistance

If you have questions about bilingual labeling, you can get assistance by sending an email to oppbilinguallabels@epa.gov.

The Case Details Page

When you click on a **Case Number** link on the Dashboard or **Applications** Tab, the Case Details Page opens in a new tab in your browser. You can only navigate back to the Home page from this page, but you can click on the previous tab in your browser to return to the Dashboard or Applications Tab and navigate from there. This allows you to have multiple cases open at the same time.

The screenshot shows the Case Details Page for Case 00843596. The page is divided into several sections, each highlighted with a red circle and a number:

- 1. Case Header, Path, and Tabs:** Includes the top navigation bar (Home, Recent Announcements, User Guide), the user profile (Thomas Missler), the company name (Aperture Science - 200017), and the case header with the Action Code (00843596) and a table of case details (Subject, Admin Number, Status, Substatus, Case Owner).
- 2. Information:** A section containing various fields such as Subject, Team, Action Type, Application Date, Status, Start Date, Substatus, Original Due Date, Relationship, Projected Completion Date, Technical Screen Due Date, and Point of Contact.
- 3. Date Information:** A section containing fields for Response Date and Completed Date.
- 4. Additional Info:** A section containing fields for Response Code and CDX Package ID.
- 5. Products (0):** A section showing the number of products associated with the case.
- 6. Ingredients (1):** A section showing the number of ingredients associated with the case, including details for 8258-33-1 / 773754.
- 7. Correspondence:** A section for managing correspondence, including a post input field, a share button, and a search bar.
- 8. Case Tree View:** A section showing a tree view of the case, including the case number and a link to the case details.

There is a lot of information on the Case Details page. We have broken it up into eight sections:

1. Case Header, Path, and Tabs
2. Information
3. Date Information
4. Additional Information
5. Products
6. Ingredients
7. Correspondence
8. Case Tree View

We will cover each section separately.

Case Header, Path and Tabs

This is a quick reference section that has the most important case information available at a glance. You can see:

- **Subject**
- **Admin number**
- **Status**—indicates the stage of the EPA review process the application is currently in.
- **Substatus**—This is dependent on what Status the application is in. Not all Statuses have Substatuses.
- **Case Owner**

Below those fields you will see the Path. This shows the Status your application is currently in and shows you how many more steps it has before it is closed.

Below the Path are the Details and Documents tabs. Clicking the Documents tab will show all the documents submitted for the case. See page 45 for an explanation of the Documents tab.

Subject	Admin Number	Status	Substatus	Case Owner
0616	200017-1	Technical Screen/Regulatory In-Processing		Russ Cargill

Products

This is different than the My Products tile on the Dashboard. My Products lists all your company’s products. The Products tile on the case details page only shows the products related to that specific case. This section has the following fields:

- **Product Name**
- **Admin Number**

Products (1)

46064 / 58981-2

Product Name:

Admin Number:

PROPIONIC ACID TECHNICAL

58981-2

Ingredients

This is different than the Active Ingredients tile on the Dashboard. Active Ingredients lists all your company’s ingredients. The Ingredients tile on the case details page only shows the ingredients related to that specific case. This section has the following fields:

- **Ingredient Name**
- **CAS Number**—Chemical Abstract Service Numbers are provided for the convenience of the regulated community and the public to aid in the identification of the designated hazardous substances.
- **PC Code**—or Pesticide Chemical Code is a unique chemical code number assigned by the EPA to a particular pesticide active ingredient, inert ingredient or mixture of active ingredients.

Ingredients (1)

64-67-9 / 031490

Ingredient Name:

CAS Number:

PC Code:

Xylene Peroxide

64-67-9

031490

Case Tree View

This section shows the following information:

- **Request Case**—Signified by a file folder icon and shows the Case Number
- **Action Code Case**—Signified by a lightning bolt icon and shows the Case Number | Subject | Admin Number | Projected Completion Date
- **Task Group**—Signified by a beaker icon and shows the Subject | Projected Completion Date

The case that is highlighted in the Case Tree View is the case you are currently viewing on the Case Details Page.

If the icon is dark gray, it is an active case. If the icon is light gray, that indicates the case is closed.

In the example, the user is viewing the Action Code Case. The Request Case and Action Code Case are active and the Task Group is closed.

Case Tree View

Correspondence

The Correspondence tile provides a place for communication and collaboration about the case you are viewing, allowing you to post updates, share insights, ask questions, and engage in conversations with the EPA. It does not support email integration. Please note, Correspondence has equivalent response times to email.

1. To make a Post, type a message in the **Share an update...** text box. When you are finished click the **Share** button. In the example the Post is “Here is a label with suggested revisions”
2. To Comment on a Post, type a message in the **Write a comment...** text box. When you are finished click the **Comment** button. In the example the Comment is “[@Russ Cargill](#) (EPA) Thank you!”
3. Using the “@” followed by a person’s name “tags” that person in your comment. If you look at the Comment Riley Schultz made in the example, it starts with “[@Russ Cargill](#) (EPA).” That indicates that Russ was tagged in Riley’s comment. You can tag people in a Post or a Comment.
4. If another user makes a Comment on your Post or previous Comment, you will receive a Notification—a red circle with a number will appear over the bell icon in the header. The number indicates how many unread notifications you have. Clicking the Notification will take you to that thread where you can see all discussions related to the post.

Emails and Notifications

When you make a Post in Correspondence, you are the owner of that thread. You will receive an email and a Notification every time a comment is made. You do not need to be tagged; you will automatically receive the alerts.

If a user makes a Comment in a thread, that user will receive an email every time another comment is made. They will not receive a Notification unless they are tagged. You, as the Post owner will receive an email and Notification.

If a user makes a Comment and tags a specific person [@User Name](#), the tagged person will receive an email and a Notification. Everyone else who posted a comment in the thread will receive an email, and the Post owner will receive an email and Notification.

If you reply to the email you received, your response will appear in Correspondence. You cannot tag people using [@](#) from email, but if you type the person’s full name in your message, they will receive an email alerting them. If you try to attach a file to your email and send it, the message will go through but the attachment will not.

00824512 | A390 | 106044-87

The documents listed in the Submission section are the documents that were submitted when the case was created in MyPeST. The Update section shows documents that were submitting using the Update Existing Application button on the Submit tab. Each Update that is added will have its own time stamped section.

To preview a document you will need the CROMERR ACTIVITY number listed on this page and the CROMERR Passphrase you created when you submitted the document. All documents in a block use the same Passphrase.

To return to the Case Details page, click the Details tab.

45MyPeST User Guide | Case Documents Page

Make a Submission

You are now able to submit a new application or update an existing application for a pesticide through MyPeST.

After you select your organization on the Home page, you now have the option to click the **Make a Submission** button. You can also access this functionality by clicking the **Submit** tab from the Dashboard.

To get started, click the **Make a Submission** button on the Home Screen or the **Submit** tab from any other page.

Make a Submission button on the Home page

You can access the Submit Tab from almost any page in MyPeST.

Start New Submission

1. You will see two buttons: **Start New Submission** or **Update Existing Application**. Use Start New Submission if you are registering a new product with the EPA. Use Update Existing Application if you need to add documents in support of a product that has begun the registration process. To begin, click **Start New Submission**.
2. You will see the following fields:
 - **Case Contact Name**
 - **PRIA or Non-PRIA**
 - **Action Code**
 - **Product**
 - **Fee**
 - **Upload File(s) Max of 200**
3. Click the **Case Contact Name** dropdown to designate a person in your organization who has registered in CDX and Login.gov. This is the person EPA staff will contact with questions about the product you are registering. If the person you want to designate as contact has not yet registered in MyPeST have them follow the steps in the Account Setup section before making a submission. If a contact is not selected the person making the submission will be designated the contact.
4. Click the **PRIA or Non-PRIA** drop-down. You can select one of two options:
 - **PRIA**
 - **Non-PRIA**

The screen you see if you click the Make A Submission or the New Application tab.

The fields you first see when you click the Start New Submission button. The PRIA or Non-PRIA dropdown menu is highlighted. Your selection in this field will determine what appears in the subsequent drop down menus.

A screenshot of the 'Create Submission' form in the MyPeST system. The form is titled 'Create Submission' and is divided into several sections. The 'Application Information' section includes a 'Case Contact Name' dropdown. The 'Action Information' section includes a 'PRIA or Non-PRIA' dropdown, which is highlighted with a red rectangular box. Below this are fields for 'Action Code', 'Product', and 'Fee'. At the bottom, there is an 'Upload File(s)' section with a file upload button and a note about a maximum of 200 files. On the right side of the form, there is a 'Paperwork Reduction Act Burden Statement' section with text about pesticide registrations and fee waivers. The form has 'Cancel' and 'Add Application' buttons at the bottom.

5. Click the **Action Code** drop-down. The selection you made for **PRIA or Non-PRIA** will determine what **Action Codes** are available. For a list of Action Codes for the current fiscal year, please see Appendix E.

Some Action Codes require extra information:

506, 516, 526, 536, 546, 556, or 580—

The **Source Product** field will appear. You must select a product from the drop-down list before you can submit.

676, 678, 679—The **Active Ingredients** field will appear. You must select an ingredient from the drop-down list before you can submit.

800—The **Source Product** field and **Distributor Company** field will appear. You must select one product and one distributor before you can submit.

6. Next, click the **Product** drop-down. Your choices are:

- **No Product**—choose this option for:
 - Tolerance Petition
- **New Product**—choose this option for:
 - PRIA submissions with a Fee
 - PRIA submission with No Fee
 - Registration Review Label Amendments
 - Voluntary Data Submissions
 - Section 18 / Emergency Exemptions
 - Special Local Need (SLN)
 - Notifications
 - Amendments
 - New Products
 - New Uses
 - Fee For Service (FFS) Product Changes
 - 270 Inert Tradename Clearance Request can only be used with New Product.
- A product from the list of your company's registered products. Choose this option if you need to file a new use application for an existing product. Selecting an existing product will create a new case with the EPA for that product.

7. If you select **New Product**, the **Product Name** field will appear. Enter the name of your product.

Start New Submission page with the New Product Name and Fee Waiver fields visible and the Fee field populated.

Start New Submission page with the Ingredient field visible and a document uploaded. Since there is no fee associated to this action code the Fee field has \$0.00 and the Fee Waiver field is not visible.

PLEASE NOTE:

You **MUST** select **New Product** with Action Code **270 Inert Tradename Clearance**

When requesting an Inert Tradename Clearance Request, you must select Non-PRIA, Action Code: 270 Inert Tradename Clearance Request, Product: New Product, and enter a New Product Name.

8. The **Fee** field will automatically update with amount due based on the **Action Code** you select.

If a fee is due, the **Fee Waiver** drop down will appear. If you do not wish to claim a fee waiver, you can simply leave this field blank. If you would like to request a fee waiver, select the code corresponding to the percentage of the fee you would like the EPA to waive.

9. Finally, upload your document(s). You must upload at least one and no more than 200 documents. You can drag and drop your files or you can click the Upload Files button and select documents by navigating to the location on your hard drive.

The accepted file types are:

- .pdf (Adobe Acrobat)
- .doc (Microsoft Word 1997–2003)
- .docx (Microsoft Word 2003–Present)
- .xls (Microsoft Excel 1997–2003)
- .xlsx (Microsoft Excel 2003–Present)

10. Click **Add Application**. At the top of the screen a new **Applications Added** section will appear.

11. The **Applications Added** section displays the Product, Action Type, Action Code, Fee, and Fee Waiver information you provided.

If you would like to see a summary of what you are about to send the EPA, click **Preview**. An html file will automatically download. You can open that file with your web browser.

12. If you are ready to send your application to the EPA, click **Submit**.

Clicking the **trashcan icon** will delete your application and all documents you uploaded and nothing will be sent to the EPA.

After you click Add Application the Applications Added section will appear on the page. Clicking the trashcan icon will delete the application and all files associated to it. You can submit multiple applications at once by filling in the data, uploading at least one additional document and clicking Add Application again.

The screenshot shows the 'MyPest Application Summary' page. At the top, the 'Applications Added' section is highlighted with a red box. It contains a table with columns: Action Type, Action Code, Product, Fee, Fee Waiver, and Remove. The table has one row: PRIA, A390 New AI Direct Food, Liquid Asbestos (200005-2), \$345,729.00, FR50 50% Discretionary Refund Request, and a trashcan icon. Below the table are 'Preview' and 'Submit' buttons. To the right of the table is a 'Pesticide Registrations Statement' section. Below the table, the 'Application Information' section is visible, with fields for Case Contact Name, Search Case Contacts..., Action Information, *PRIA, *Action Code, Search..., *Product, Search Products..., and Fee. At the bottom, there is an 'Upload Files' button and a 'Cancel' button.

After you click Add Application the Applications Added section will appear on the page. The trashcan icon will delete the application and all files associated to it. Clicking Submit sends the application to the EPA for processing.

This screenshot is a closer view of the 'Applications Added' section. The table is the same as in the previous screenshot. The 'Preview' button is highlighted with a red box.

Clicking the Preview button will download an html file of the MyPest Application Summary. You can open the file using your web browser.

The screenshot shows the 'MyPest Application Summary' page. The 'Applications' section is at the top, with a table showing application details. Below it is the 'Uploaded Documents' section, which shows a table with columns: File Name, File Date/Time Stamp, and File Size. The table has one row: Text Document.pdf, 06/29/2025, 01:00:45 PM, 48.05 KB.

13. The **Create Passphrase & Review** popup will appear. Your passphrase must meet the following criteria:

- At least 8 characters long
- No more than 20 characters
- Spaces are allowed
- No special characters (!, #, ?, etc.)
- Case sensitive

When your **Passphrase** and **Confirm Passphrase** field match the Continue button will become active. If you need to see what you typed, click the **eyeball icon** in the field.

14. Click **Continue**.

15. The **Digital Signature Screen** popup will appear. Click **Accept** if you certify, under penalty of law that the information provided in this document is, to the best of your knowledge and belief, true, accurate, and complete. You are aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations. If not click **Decline** and cancel your submission.

16. If you clicked **Accept** you will return to the submission page that is grayed out. You will see a green Success message appear to indicate that your submission was sent to the EPA.

Congratulations! You have successfully completed a product submission to the EPA.

The Create Passphrase & Review popup.

The Digital Signature Screen. Clicking Decline here will cancel your submission.

The message you will see when your submission is successfully submitted.

Update Existing Application

1. From the Submit screen, click **Update Existing Application**. You can also access this functionality from the Application Details page by clicking the **Update Application** button.
2. You will see the following fields:
 - **Contact Name**
 - **Case**
 - **Description**
 - **Upload File(s)**
3. Click the **Contact** drop-down to see a list of people in your organization who are registered in CDX and Login.gov. If the person you want to designate as contact has not yet registered have them follow the steps in the Account Setup section before making a submission.
4. Next, click the **Case** drop-down. You will see a list of cases your company has created with the EPA. Your case number is an 8 digit number created by Salesforce. You can find the case number by clicking the Applications tab and searching for the product you wish to update. If you clicked the Update Application button on the Applications details page, the Case will auto-populate the case number of the record you were viewing.
5. In the **Description** field you can explain what you are uploading and why you are uploading it. If you submitted a form with an error and are resubmitting a corrected version of that form or if the EPA requested more information and the document(s) you are uploading fulfill that request, you can explain that in the Description field.
6. Upload your document(s). You must upload at least one and no more than 200 documents. You can drag and drop your files or you can click the Upload Files button and select documents by navigating to the location on your hard drive. The accepted file types are:
 - .pdf (Adobe Acrobat)
 - .doc (Microsoft Word 1997–2003)
 - .docx (Microsoft Word 2003–Present)
 - .xls (Microsoft Excel 1997–2003)
 - .xlsx (Microsoft Excel 2003–Present)
7. Click **Submit**.

The screen you see if you click the Update Existing Application on the Submit tab.

The Application Details page with the Update Application button highlighted.

The fields you first see when you click the Update Existing Application button. If you clicked the Update Application button on the Applications details page, the Case will already be filled in using the case number of the application you were viewing when you clicked the button.

8. The **Create Passphrase & Review** popup will appear. Your passphrase must meet the following criteria:
- At least 8 characters long
 - No more than 20 characters
 - Spaces are allowed
 - No special characters (!, #, ?, etc.)
 - Case sensitive

When your **Passphrase** and **Confirm Passphrase** field match the Continue button will become active. If you need to see what you typed, click the **eyeball icon** in the field.

9. Click **Continue**.
10. The **Digital Signature Screen** popup will appear. Click **Accept** if you certify, under penalty of law that the information provided in this document is, to the best of your knowledge and belief, true, accurate, and complete. You are aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations. If not click **Decline** and cancel your submission.
11. If you clicked Accept you will return to the submission page that is grayed out. You will see a green Success message appear to indicate that your submission was sent to the EPA.

Congratulations! You have successfully updated an application with the EPA.

The Create Passphrase & Review popup.

The Digital Signature Screen. Clicking Decline here will cancel your submission.

The notification you will see when your submission has been successfully sent to EPA.

Submitting Multiple Applications

It is possible to include multiple applications in a single submission. To determine if you should submit applications separately or if you can combine them into a single submission, follow these guidelines:

- All applications must be for the same Product.
- Non-PRIA actions cannot be part of a multi-application submission.
- You can only apply one Fee Waiver per submission.
- At least one document must be uploaded for each application in the submission.
- There is a limit of nine applications in a single submission.

The process for submitting multiple applications in a single submission follows many of the same steps that submitting a single application requires.

1. From the Submit screen, click **Start New Submission**.
2. Enter data for following fields:
 - **Case Contact Name**
 - **Product**
 - **PRIA or Non-PRIA**—After you select PRIA for the first application you will not be able to select Non-PRIA for subsequent applications.
 - **Action Code**
 - **Upload File(s)**—You will need to upload at least one document per application.

When the **Fee Waiver** field appears, the code you select here will apply to all the other applications included in this submission. Only can only add one Fee Waiver per submission.

3. Click **Add Application**.

The screen you see if you click the New Application tab.

The fields you first see when you click the Start New Submission button.

In this example we have a PRIA action with an A390 action code using the existing product Liquid Asbestos, and a 50% Fee Waiver is requested with a document attached to this application.

4. The **Application Added** section will appear above the Application Information section showing the action type, action code, product, fee, and fee waiver you just added.
5. To add an additional application to this submission, enter data for:
 - **Case Contact Name**
 - **PRIA**—You can only select PRIA
 - **Action Code**
 - **Product**—Must be the same product you used in step 2.
 - **Upload File(s)**
6. Click **Add Application**.
7. The application you just created will appear in the Applications Added section.
8. Repeat this process until you have added all the applications for your submission or until you have added nine applications.
9. If you would like to remove an Application before submitting, click the **trashcan icon** to remove it.
10. If you would like to view a summary of your application, click **Preview** which will download an html file with the details of what you are submitting. You can open the html file in your web browser.
11. Click **Submit**.

Congratulations! You have successfully submitted both applications to the EPA.

The Applications Added section is now visible. For the second application you can only select PRIA and the Fee Waiver field is gone since one was included with the first application in this submission.

The Applications Added section shows both applications that will be submitted. If you would like to remove an application, click the trashcan icon. If you would like to see a summary of your submission, click Preview. If everything looks good, click Submit to send both applications to the EPA.

Clicking Preview will generate an html file that will automatically download to your computer. You can open it in your web browser.

Contact	Organization Name	Product	New Product Name	Action Type	Action Code	Fee	Fee Waiver
Tom Missler/Test Company		Liquid Asbestos (200005-2)		PRIA	A380 - A380 New AI Indirect Food	\$239355.00	FR50 50% Discretionary Refund Request
Tom Missler/Test Company		Liquid Asbestos (200005-2)		PRIA	A390 - A390 New AI Direct Food	\$345729.00	—

File Name	File Date/Time Stamp	File Size

How to View Your Submitted Documents and Copy of Record

To preview a document you submitted through MyPeST, follow these steps:

1. From the Dashboard, click the **Case Number** hyperlink in either the Applications tile, Pending Applications tile, or click the **Applications Tab** and find the case in the list that is associated to the documents you want to preview.
2. That will open the Case Details page. Click the **Documents** tab.
3. Find the document you want to preview and note the CROMERR ACTIVITY number it is associated with.
4. Click **your profile** in the top right corner of the page and select **MyCDX** then click the **Go to MyCDX** button.
5. Click the **Submission History** tab.

In the Documents tab: 1) find the document you want to view. In this example we are looking for “8570-4 Chlorantraniliprole-Technical--CSF-2920-1--Basic-SYN5451.pdf”
 2) Note the CROMERR ACTIVITY number “_83e1cdd3-81de-4fb5-8dcf-af61c66bb742”.

MyPeST User Guide | How To View Submitted Documents and Copy of Record

- Find the CROMERR ACTIVITY number in the Submission ID column and click the hyperlink.
- Clicking the link takes you to the Submission Details page. This page has Submission Details and Document Sets.

Submission Details shows:

- Submission ID
- Description
- Dataflow
- Created
- Download
- User ID
- Name
- User Organization

Each document included in a submission has its own Document Set section. There is also a Copy Of Record with a filename that starts with **COR_** **MyPestCreateApplication_[NUMBERS].html**. This file shows the details of the submission and lists all files included.

- Find Documents Set that has the title of the document you want to view and click **Decrypt (passphrase)**.
- On the Decrypt Document page **enter the Passphrase** you created when submitted the document and click **Decrypt**. The document will automatically download to your computer.

Find the CROMERR ACTIVITY ID you found in MyPeST in the Submission ID list and click the hyperlink.

- On the Decrypt Document page enter the **Passphrase** you created when submitted the document and click **Decrypt**. The document will automatically download to your computer.

The process is the same for every document in a submission. In our example, there are six uploaded documents plus the Copy Of Record file in the submission. If you want to view all seven documents you would need to repeat steps 8 and 9 for each file. You cannot bulk download the files in a submission.

On the Decrypt Document page enter the Passphrase you created when you submitted the files in MyPeST and click Decrypt.

Appendix A—The Role Management Tab for Company Administrators Only

Pending Requests, Pending Invites, and Decisions

At the top of the Role Management Tab page you will see a search bar. You can search for terms in any of the fields that are displayed in the table. As you type, the table will filter results. In most cases, you will only need to type a few letters before you find the person you are looking for.

On the Role Management Tab you will see a table with three sections: **Pending Requests**, **Pending Invites**, and **Decisions**. Under each section you will see 6 columns:

- **User:** The requestor's name.
- **Email:** The requestor's email.
- **Role:** The role the requestor is seeking approval for.
- **Status:** Can be Pending, Approved, Denied, or Revoked.
 - **Pending:** No decision has been made about the request.
 - **Approved:** The requestor has been granted the role.
 - **Denied:** The requestor has not been granted the role. They can reapply for a role, but this requested is closed.
 - **Revoked:** The requestor was originally approved for a role but they no longer need access to this company.
- **Down Arrow Buttons:** Click these buttons to Approve, Deny, or Revoke a user's access.

The table is broken down into three sections:

Pending Requests

Users have sent requests to the company for a role. The Company Administrator can **Approve** or **Deny** by clicking the **Down Arrow Button** and selecting from the drop-down options. If you select **Deny**, you will see a popup asking you to confirm your decision. If you click **Approve**, there is no popup.

Pending Invites

The company has sent a request to the user for a role. The Company Administrator cannot take any further action on this request.

Decisions

The list of all users who have been approved, denied, or revoked for a role. The Company Administrator can revoke a role for an approved role in this section by clicking the **Down Arrow Button** and selecting **Revoke**. If you select **Revoke**, you will see a popup asking you to confirm your decision.

Role Management Tab

Down Arrow Button with Approve or Deny options in the Pending Requests section

Down Arrow Button with the Revoke option in the Decisions section

Invite A User

As a Company Administrator you have the ability to invite people to have a role with your company. It works the same way as Requesting a Role, only in reverse. The Company Administrator enters the user's:

- First Name
- Last Name
- Email
- Role

When the Company Administrator clicks **Next**, an invitation is sent to the specified user. They can Accept or Reject the invitation. The Company Administrator will receive an email indicating the user's decision.

If a user rejects a role, they can subsequently request that role or a different role with the company or be invited again for that role or a different one. They are not "locked out" if they refuse an invitation.

If you try to send an invitation to a user who has not yet created an account in MyPeST, you have the option of having an auto-generated message sent to the email address you specified in the invite asking the person to create an account. Once that user has created an account, you can invite them or they can make a request to join your company.

The screenshot shows the EPA MyPeST Role Management interface. A modal titled 'Invite a User to have a Role with a Company' is open, highlighted with a red border. The modal contains fields for 'First Name', 'Last Name', and 'Email'. Below these is a 'Role To Invite' section with radio buttons for 'Company Administrator', 'Company Representative', 'Consultant', and 'Contributor (Future)'. A 'Next' button is at the bottom right of the modal. The background shows a table with columns for User, Email, Role, Status, and Last Modified, containing various users and their roles.

Changing Roles

If a user accepted a role with your organization but now you want them to have a different role, the Company Administrator has the ability to make that change.

1. Find the user's name in the Decisions section of the Role Management tab and select **Revoke** in the drop-down.
2. The CA can now invite the person to take on a new role with the organization since they no longer have a role.
3. When the user accepts the invitation they will be back in the organization with their new permissions and responsibilities based on their new role.

Appendix B—Subject Codes

Appendix C—Troubleshooting Role Requests in CDX

You have successfully signed in to MyPeST, requested a role, submitted the required documentation (if necessary), and have been granted the role you requested. If you requested to be a Company Administrator you should be able to see and do everything in MyPeST.

When you select your company to begin working in MyPeST you see this error on the home screen:

Warning: You are not allowed to submit on behalf of this company.

What is happening here?

From MyPeST's perspective you are a Company Admin and have all the permissions to view and submit on behalf of your company. The problem is you don't have the same permissions in CDX.

How do I fix it?

1. Under your profile select **MyCDX**. This will take you out of MyPeST and into CDX.
2. On the Central Data Exchange page click the **Go to MyCDX** button.
3. On the Central Data Exchange page click **Add Program Service**.

Step 1

Step 2

Step 3

4. In the Active Program Services List type “PSP” then select **PSP: Pesticide Submission Portal (MyPeST)**.
5. In the Select Role drop-down, select **MyPeST Submitter** and click the **Request Role Access** button.
6. Search for it by typing the name and clicking **Search**. If you see your company in the search results, click the **Organization ID hyperlink** next to your Organization Name. If your company does not appear in the list, click **request that we add your organization hyperlink** and follow the process to add your company to CDX.

Step 4

EPA United States Environmental Protection Agency

Step 9 and Select An Organization

Welcome to the EPA MyPeST Application

MyPeST is an application used by organizations in the regulated community to view and interact with their pesticide products and applications. The MyPeST application provides details on the progress of pesticide applications that an organization has previously submitted to the Office of Pesticide Programs (OPP). The MyPeST application allows users to communicate with OPP staff regarding their products and pending applications.

Let's Get Started...

If you already have a role for a company, please select the company you wish to perform the work for.

If this is your first time here and do not have a role for a specific company, please request a role using the Request Role button below.

Select an Organization to Begin

Test Company | 106044 | Company Administrator

Go to Dashboard **Make a Submission** **Request a New Role**

Appendix E—Required Letter Content for Company Number Request

Once you have created a company in CDX and clicked the Request a Company Number button on the MyPeST home screen, you will need to submit a letter that contains the following information:

- **Company Name:** (formal name of the company)
- **Company Contact Name:** (name of the employee designated to interact with EPA)
- **Company Contact Phone Number:** (area code and phone number)
- **Company Contact:** (email address)
- **Official Company Mailing Address:** (Example: 123 Street Name, Anywhere, State, Zip: #####. EPA will direct all future correspondence to the official address.)
The registrant must keep this official address record up-to-date (see: <https://www.epa.gov/pesticide-registration/pesticide-registration-manual-how-report-changes-company-name-or-address>.)

Foreign registrants must designate a U.S. agent to receive correspondence and represent the registrant in matters concerning their application. U.S. registrants may also designate an agent. An agent is not required for U.S. registrants. When identifying an agent in the Company Number Generator application:

After you have added your company information, complete the designated agent section to include the agent's company contact information:

- **Agent Name** (formal name of the agent's company)
- **Agent Contact** (name of the employee designated to interact with EPA)
- **Agent Contact Phone Number:** (area code and phone number)
- **Agent Contact:** (email address)
- **Agent Official U.S. Company Mailing Address:** example: 123 Street Name; Anywhere, State, Zip: ##### (Please note, when an agent is designated, EPA will direct all future correspondence to the agent address)
- You are required to attach a signed letter on company letterhead.
- Include in the letter the company information in the format stated above.
- If an agent has been named (foreign registrants must designate a U.S. agent) you must also include in the letter, the agent's contact information in the format stated above.
- The letter must also include a statement authorizing the agent to act in all matters concerning the registration of your product with EPA.
- It must also include a statement acknowledging that all official correspondence from EPA will be directed to the agent.

The person requesting the company number will be assigned the role of Company Administrator. Therefore you must also include the following statement granting that authorization:

"On behalf of [COMPANY NAME AND NUMBER] I authorize [COMPANY ADMIN'S NAME] to perform the role of Company Admin in the U.S. EPA MyPeST App. This authorization grants the ability to view, edit, and perform all role management activities for [COMPANY NAME] in the U.S. EPA MyPeST App."

This must appear on company letterhead, be signed by a company officer, and be included in the same file as the company number request.
